

Synergy Education Holdings Group

Workforce training, rebuilt around outcomes.

LAUNCHING AUGUST 10, 2026 · [SYNERGYEDUCATION.AI](https://synergyeducation.ai)

THE PROBLEM

Training is bought on faith, not proof

- 01 Workers can't see which skills actually stand between them and a better job
- 02 Employers buy training with no proof it moved wages or performance
- 03 Course catalogs are bloated with hollow content and inflated seat time

THE PLATFORM

137

fully built courses live today, with
198 more in development

A live storefront and LMS

A catalog spanning 8 subject verticals, purchasable today with live checkout

Honest tiers

Essentials micro-courses now; full Premium courses held to a strict completeness gate

Built for real learning

Multilingual delivery, SCORM-grade player, certificates and learner feedback built in

TWELVE AI TOOLS, ONE LEARNER RECORD

Every tool reads and writes one shared profile

Skill Gap Analyzer

Maps your skills against real O*NET occupation requirements

Curriculum Builder

Assigns or generates the courses that close each gap

AI Tutor

Course-grounded help that refuses to hand out assessment answers

ROI Calculator

Wage lift and payback grounded in public BLS and BEA data

Pathway Recommender

Suggests stackable pathways from your current role to your target

Course Matcher

Matches learners to the right program for their target role

Curriculum Generator

Builds complete courses from PDFs, URLs, and videos

Auto-Grading

Grades essays against rubrics with line-by-line feedback

Adaptive Engine

Adjusts pacing and difficulty from live mastery signals

Workforce Gap Predictor

Forecasts regional role shortages and emerging skills

Credential–Demand Mapping

Ties every credential to demand signals and salaries

AuthentIQ™ Integrity Layer

Forensic zero-cheating layer for assessments

THE LOOP COMPETITORS DON'T HAVE

Each pass sharpens the next recommendation

Find the gap

Skill Gap Analyzer

Build the curriculum

Curriculum Builder

Learn with the tutor

AI Tutor

Measure the outcome

ROI & Pathways

Every cycle enriches the learner's profile. Integrity-native by design, with IP counsel engaged on the underlying systems.

THE HOOK

A free skill-gap analysis, no account needed

Enter a target role and your skills — in under a minute you get a readiness score, your missing skills, and a real dollar wage-lift figure for your region

Every result is shareable and captures a lead into the platform

SAMPLE RESULT

9%

ready today for Data Analyst

+\$29,078

potential wage lift in Texas after closing the gap

GROUNDING IN REAL DATA, NOT GUESSES

Learners see where every number comes from

O*NET

Occupational skill requirements for every target role

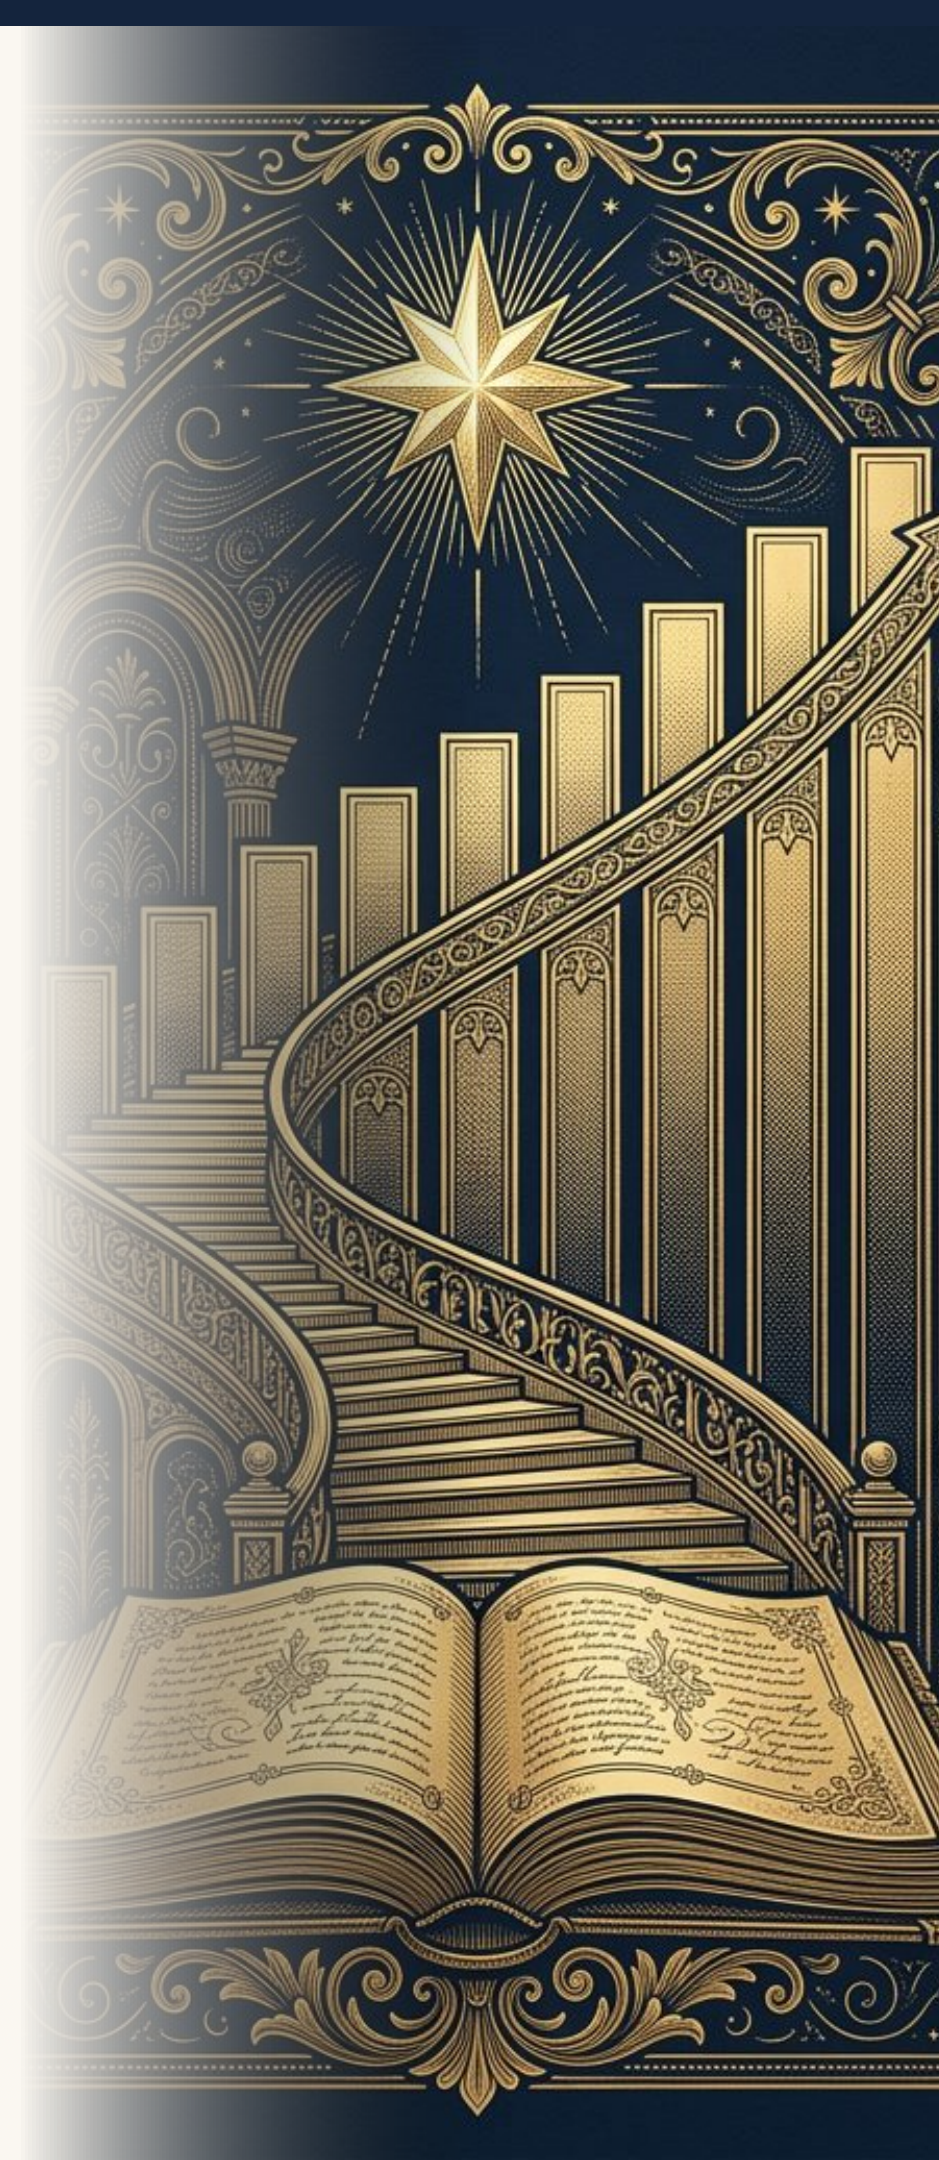

BLS OEWS

Wages and employment projections behind every dollar figure

BEA RPP

Regional price parities for geography-adjusted numbers

Sources are cited on-screen, inside the product itself.

BUSINESS MODEL

Six revenue streams, one platform

How we monetize — distinct from the 8 subject verticals the catalog covers

01

Course sales

137 live courses from \$49 essentials to premium programs, sold through live Stripe checkout

02

Faculty SaaS

AuthentIQ paper authentication & exam integrity — \$8.99 per exam or \$4.99/mo unlimited, plus AI stack add-on

03

University OPM

70/30 revenue share with institutional partners, plus a \$19.99/mo curriculum builder tier

04

Corporate seats

Upskilling & compliance at \$20–\$40 per seat/month, growing to \$30k–\$500k enterprise contracts

05

Government & public safety

POST/IADLEST-aligned CE at \$149–\$249 per learner and \$25k–\$250k agency contracts

06

International & white-label

PPP-adjusted LATAM pricing engine and branded LMS instances for partners

TRACTION & DEFENSIBILITY

Real revenue. Patented technology.

\$160k

ARR from public-safety professionals
through our mental-health training program

Two co-owned AI EdTech patents

Biometric & retina-scan exam proctoring engineered to prevent bias,
backed by a 360° full-motion sensor camera system

Zero Cheating — our newest patent

Web-crawling integrity engine that spiders cheating sites to detect leaked
exam content before it costs a credential its value

WHERE WE ARE TODAY

Live, selling, and ready for launch

- ✓ Platform live and publicly accessible, payments live
- ✓ 137 real courses purchasable — hollow content is structurally locked out of the catalog
- ✓ Free skill-gap teaser live as the launch growth engine
- ✓ Built and shipped in weeks with an AI-agent development pipeline

Find your gap. Close it. Prove it.
