

A zero-upfront-cost path to workforce-aligned education

University Pitch Deck — programs, integrity stack, financial model, and rollout timeline.

THE PROBLEM

Enrollment is down. Workforce demand is up. The gap is trust.

- Traditional programs are slow to align with labor-market demand.
- AI-written coursework has eroded confidence in academic integrity.
- Universities need new revenue lines without new upfront risk.

Zero upfront cost. Partnership revenue share.

UPFRONT COST TO UNIVERSITY

SETTLEMENT CADENCE

**Quarterly, with audit
rights**

Six AI tools in one workforce-education suite

- AI Forensics — paragraph-level AI-generation detection.
- AuthentiQ(TM) — patent-pending writing-process verification.
- Curriculum Generator — full course builds in minutes.
- ROI Calculator — per-learner payback and wage-lift modeling.
- Pathway & Workforce Engine — O*NET/BLS-informed career mapping.

AuthentiQ: patent-pending paper authentication

- Verifies the writing process, not just the final text.
- Documented evidence supports appeals and accreditation reviews.
- Keystroke cadence, edit history, and paste provenance per submission.

What a mid-size cohort looks like

SAMPLE LEARNER PAYBACK

9–14 months

SAMPLE 5-YR LEARNER ROI

180–320%

UNIVERSITY TEACH-OUT PROTECTION

90 days

TERMS

3-year term, 30-day opt-out, faculty IP retained

- 3-year initial term; either party may terminate for convenience on 30 days' notice.
- Faculty-authored curriculum and University trademarks remain University property.
- FERPA-aligned data handling with 72-hour breach notice.
- Delaware governing law; AAA arbitration in Wilmington, DE.

From NDA to live enrollments in five stages

- 1. Intro call — 30-minute discovery and partnership walkthrough.
- 2. NDA — mutual, e-signed online.
- 3. MESA — master agreement + first Statement of Work.
- 4. Kickoff — brand setup, program selection, launch plan.
- 5. Live — marketing on, enrollments flowing, quarterly settlement.

Let's start with a Mutual NDA
